Sources: California Agricultural Statistics Service; California Pistachio Commission Processors' Producer Delivery Reports and Acreage Surveys. 2005 and 2006 data obtained from California Pistachio Commission Acreage Surveys.

<sup>1</sup> Bearing acreage for 1989 to date is defined as plantings six years and older. Bearing acreage prior to 1989 is defined as plantings seven years and older.

<sup>2</sup> Calculated on a California Pistachio Commission assessed-weight basis. <sup>3</sup> Weighted average which includes shelling stock. Revised by California Agricultural Statistics Service periodically.

\* Only open inshell is reported as this is the industry standard for determining inventory carryover.

\*\* Inventory adjustments include splitting and shelling adjustments as well as inventory adjustments resulting from processing loss and inventory corrections.
