

TOM COLEMAN

I am a full time pistachio farmer in Madera and Fresno Counties. I have been self-employed since I graduated from U.C. Berkeley in 1974. I have been involved in growing pistachios since 1979, first as a nurseryman and then as a grove owner in 1981.

I was an alternate to the California Pistachio Commission in 1995. I was elected as a full commissioner in 1996. In 2004 I was elected as a member of the Administrative Committee for Pistachios. I am currently chairman of the California Pistachio Research Board.

I would welcome the opportunity to server another term on the A.C.P board.
