

Hello. My name is Paul Takhar. Being born and raised in Yuba City, California allowed me to be in and around agriculture all my life. I have a BS in Economics with emphasis in Money and Banking from California State University Sacramento. I'm fluent in five languages. I'm co-owner of PR AG Services, LLC. My company farms, manages, and custom harvests pistachios. Besides being actively involved in pistachios, we grow peaches, almonds, and walnuts. I've farmed my whole life.

I'm a member of American Pistachio Growers (APG) and a graduate of APG's leadership class of 2014. I know that I'd be a great asset and addition to the Administrative Committee for Pistachios through my ability to communicate, educational background, and due to the valuable experience attained from farming, continuing education, and membership involvement in APG. Thank you for your time learning more about my bio and your consideration for your vote. Your vote and approval is important to us located in Northern California in District 3. Please vote for me. Thank you.
